JAWA 350 COMBINATION

*.....value for money motorcycling*

## JAWA 350 type 638.5

The Jawa 350 Deluxe is designed with the Commuter in mind, although it has been used for touring with excellent results.

It features a completely new engine, a carburettor which has choke and air intake, 12 volt electrics, reinforced clutch and forks plus a mechanical rev. counter.

Its unsurpassed roadholding is achieved by a unique combination of suspension, power, handling, torque and weight.

You can ride it for long distances without worry, its 17 litre tank ensures that.

And you can ride it in comfort, whatever the weather, for it has heavy duty deep profile mudguards and fully enclosed chain.

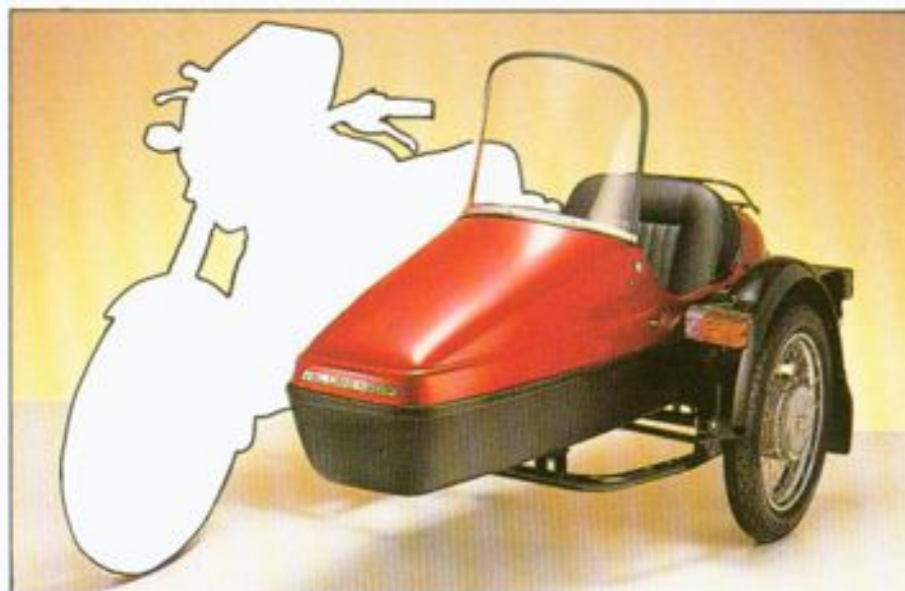

It is a top quality, top value bike which you can own with pride and ride with confidence.

Colours are Black or Metallic Red.

## JAWA Combinations

Add a sidecar to your 350 for convenient, economical, family travel. You can have complete confidence, too, when you ride the JAWA 350 with sidecar because we make important modifications to ensure the best possible handling, roadholding and performance.

Colours are - Velorex Combination - Metallic Silver or Metallic Red.  
Tradesman Box - Black & White.
